

Assistant Roofing Technician for Service Team

We are looking for experienced roofers or individuals who want to learn the trade to join our Roofing Service Team.

In this role, you will construct safe and durable roofs and fix damaged parts such as, for example, broken shingles. You will install all materials in good order and set up systems, such as insulation and vapor barriers.

To succeed in this role, you should have the ability to use hand tools, such as shingle cutters and roofing hatchets, and stand on ladders and scaffolds for long hours at a time. You'll also know how to handle materials (e.g. wood, asphalt) for different roofing styles and tasks.

Roles and Responsibilities for the Assistant Roofing Technician position include, but are not limited to, the following:

- Perform roof pre-inspections
- Measure and cut project materials
- Smooth and level roof surfaces
- Load and Install roofing materials
- Complete site set up and clean up
- Perform repairs on all types of roofing systems

Skills and Qualifications

- Dedication to construction safety
- Ability to lift up to 75 pounds of heavy materials and tools
- Ability to work outside year-round with extensive bending, kneeling, and walking.
- Ability to establish and keep positive working relationships with peers, customers, and other contractors
- Willingness to work cooperatively with a team to get the job done
- Willingness to learn new skills/trade
- Reliability

Requirements:

- 21 years old
- North Carolina Drivers License - 5 year minimum with a clean driving record
- Ability to work at heights
- Software/Technical experience a plus

Salary Range: \$11-15 per hour

If you would like to be considered for this position, please email your cover letter and resume to tara@curtiscc.com.
