

Field Service Technician

Who we are:

Curtis Construction Co., Inc. is a well-established commercial roofing company servicing customers from the Triangle to the Coast of North Carolina for over 60 years and is one of the largest and most respected commercial and industrial roofing contractors in the area. We need you to help us grow and continue our legacy of long-standing relationships.

What we are looking for:

We are looking for a self-starter who enjoys troubleshooting and problem-solving. This role offers the opportunity to work in a new environment and within multiple job sites daily. **Prior roofing experience is required.** Experience using mobile devices is a plus as you may be required to use these tools to document worksite details.

Job responsibilities include, but are not limited to:

- Perform repairs, leak investigations, water tests, upfit work, and maintenance on all types of roofing systems
- Perform preventative maintenance roof inspections
- Measure and cut project materials
- Move ballast rocks
- Load materials to the roof area
- Complete site set up and clean up
- Install Liquid Applied Coatings
- Install sheet metal flashings
- Repair residential roofing systems
- May perform the necessary steps to complete documentation and photos of each job site/work order

Skills and Qualifications:

- Dedication to construction safety
- Ability to establish and keep positive working relationships with peers, customers, and other contractors
- Ability to lift up to 75 pounds of heavy materials, tools, and equipment
- Ability to work outside year-round with extensive bending, kneeling, and walking.
- Willingness to work cooperatively with a team to get the job done
- Software/Technical experience a plus
- Reliability

Requirements:

- 21 years old
- North Carolina Drivers License - 5-year minimum with a clean driving record
- Ability to work at heights over 6 feet
